

# KNIFE SHARPENER DCS 5

## Design

The electric knife-sharpener that maintains the sharpness of your knives and restores the sharp edge. The appliance is equipped with a unique sharpening-wheel that sharpens the knife by 20 ceramic pins that are positioned crosswise in a wheel that rotates with a speed of 330 rpm.

The ceramic pins guarantee a careful and efficient sharpening that forms the knife-edge in a correct angle.

The sharpening-wheel with the 20 ceramic pins is a Swedish patented invention.

For very dull knives, a more aggressive sharpening method might be required and we then recommend that the knives are given to a professional for sharpening instead.

## Specifications

	Wet Belt Sander DNBS 200 D	Knife Sharpener DCS 5
Number of grinding belts	1	-
Number of grinding heads	-	1
Dimensions of grinding belt (mm)	880 x 50	-
Dimensions polishing wheel (mm)	200	-
Revolutions per minute	2950	330
Voltage (V)	400	230
Power (kW)	0,37	0,3
Dimensions (mm)		
Width	360	150
Depth	450	100
Height	315	70
Weight (kg)	29	0,7
