

KETTLE DK 150 F

Ideal for scalding sausages and cooking soups and stews

On account of its robust and double-hulled construction the kettle DK 150 F is ideal for scalding sausages and cooking soups and stews.

The plug and play version with the extra long power cable makes for an easy implementing and flexible in choosing the operating location.

In addition, due to the 3 guide rolls, one equipped with a brake the kettle can be moved quite easily.

The conical outlet valve makes for a high leak tightness and can easily be dismantled for cleaning purposes.
