

MIXING MACHINE DMM 60 / 90 VM

High performance mixing machine

On account of its compact, robust and highly efficient method of construction, the mixing machine DMM 60 VM, is ideal for medium sized butcher's shops, and for shift working supermarkets.

The separate bowl drive allows for processing even small batches starting with 2 kg up to 50 kg and the tiltable bowl allows for an easy emptying.

The well thought-out design provides for easy handling properties. Operation in practice as well as cleaning will fully come up to your demands.

DETAILS

Machine type

- Completely stainless-steel
- Separate bowl drive
- Removable mixing arm
- Mixing bowl tiltable
- User friendly push buttons, with emergency stop button
- Lid equipped with a hydraulic damper
- Specifically designed mixing bowl with ideal mixing properties

Also available without the separate bowl motor as DMM 60 V or as bigger versions DMM 90 VM or DMM 90 V.
