

Mincer DTX 98

Compact and powerful

The space-saving mincer DTX 98 uses state of the art cutting technology to produce minced meat of the highest quality.

On account of its highly efficient method of construction, combined with the hopper capacity of 15 Ltr., the Mincer DTX 98 produces a theoretical debit of 500 kg/h.

The specifically constructed worm conveys until empty and no left overs remain in the worm.

Because of its robust construction the mincer is almost maintenance free. The direct drive provides a high engine output. The machine casing as well as the cutting unit is made of stainless-steel. The machine casing and the cutting unit are completely made of stainless-steel.

The removable worm casing makes it very easy to clean.

Mincer DTX 98

Machine type

- Completely stainless-steel
- Worm and worm casing stainless-steel
- Removable worm casing
- Hopper capacity: 15 Ltr.
- Theoretical debit: 500 kg/h

Drive

- Attention-free gearmotor as direct drive
- 1 number of revolutions
- 2,2 kW , 400 V, 50 Hz
- On-/Off push buttons
- CEE jack 16 A

Specifications

	DTW 22/ DTW 22 C	DTW 82/DTW 82 C	DTX 98/DTX 98 M
Dimensions (mm)			
Height	480	480	652
Width	440	480	518
Depth	360	480	641
